The year shows the cohort group, all the first-time 9th graders who start school during that school year (plus students who transfer in, minus students who transfer out, emigrate or die) and tracks how each cohort progresses toward high school completion after 4 and 5 years. (as measured in August of the stated year)

Not shown: Students who complete HS with a non-diploma credential or local diploma (formerly IEP diploma)

\*Tompkins results include George Jr. whose data are not shown here.
