I received a phone call appearing to be from my son, on the line was an unknown male wanting a cash ransom for my son who the individual claimed to have abducted. He told me he would kill my son if I didn't pay. I hung up and after unsuccessfully trying to contact my son and his wife, I was baby sitting(2 children) for my son for a anniversary overnight. After repeatedly failing to reach him I called 911 to ask for help and or guidance. I was asked for my phone number and address to refer to a Sheriff deputy on duty Depute Gombas called be back within an hour. He was thorough, professional, aggressive with getting the facts and starting to do things. He sent a patrol car to my sons house, contacted the police in Skaneateles, came to my house at 2:30 a.m.to review what had been done and up date me on information. His guy is just amazing. If all law enforcement approached their job like he did our society would be more trusting, enlightened

- **July 2025:** TCSO launched the new Flock Safety section in the Transparency Portal.

The Tompkins County Sheriff's Office utilizes Flock Safety technology to support criminal investigations by capturing objective evidence while maintaining a commitment to individual privacy. The system's retroactive search capabilities allow investigators to review vehicle data after a crime has occurred, aiding in the resolution of ongoing cases. We have also installed Flock gunshot detection devices within the City of Ithaca. In addition, the Sheriff's Office uses Flock's real-time alerting features to notify deputies when a vehicle associated with a missing person, kidnapping, AMBER Alert, Silver Alert, wanted individual, or a subject of an active criminal investigation is detected by a license plate reader. To ensure responsible use, the Sheriff's Office has implemented a departmental policy that outlines approved procedures and explicitly prohibits misuse. Furthermore, we are committed to transparency by making usage statistics publicly available. The Tompkins County Sheriff's Office does not participate in Flock's National Search function. Access to our system is restricted to county and municipal law enforcement agencies within New York State that have an active contract with Flock Safety.
