INFORMATION, REFERRAL & EDUCATIONAL PROGRAMS FOR FAMILY CAREGIVERS

The responsibilities involved in caring for a person with long-term care needs can be tremendous. Caregivers need to develop skills in a variety of areas in order to provide quality care. In addition, from time to time important decisions need to be made which the life of the person receiving care as well as the lives of caregivers and their family members.

Several organizations are available to provide caregivers with the information and support they need to provide quality care to an older or disabled person and make informed decisions that benefit everyone. The agencies listed below can also help with planning for caregiving, which can prevent or reduce some aspects of caregiver stress.

Caregivers' Resource Center

NY Connects/Tompkins County Office for the Aging (COFA)
214 W. Martin Luther King Jr./State St.
Ithaca, NY 14850

(607) 274-5486

www.tompkinscountyny.gov/cofa/care

Staff at the Office for the Aging provide unbiased information, referral, and counseling on a wide range of benefits and services for older adults. Services provided by COFA staff are free. Voluntary contributions are always welcome and are used to expand services. COFA is open Monday through Friday from 8:30 AM to 4:30 PM. Home visits can be arranged.

Caregivers' Resource Center (CRC)

Located at the Tompkins County Office for the Aging, CRC provides information and support to individuals concerned about or caring for an aging or disabled relative or friend, near or far. The goal of the Center is to help caregivers provide quality care to older persons while also maintaining the quality of their own lives and the lives of their family members. The Center offers information on caregiving in a variety of ways, including individual counseling, information and referral, caregiver training, a caregivers newsletter and other publications, and a caregivers support group.

Powerful Tools for Caregivers

A six-week series of classes for family caregivers, offered at various times and locations during the year. Books on caregiving are available for free loan and brochures are available on a variety of health issues affecting older people and their caregivers. All services are free of charge; however contributions are always welcome to expand the service.

Project CARE

Volunteers provide friendly visiting respite to caregivers who are caring for someone with difficulty with two or more activities of daily living (e.g., dressing, bathing, continence, transferring) or for someone who is in need of substantial supervision because of cognitive impairment.

Contact: Dawn Sprague (607) 274-5499

Alzheimer's Support Unit: Support for Alzheimer's/Dementia Caregivers

The **Alzheimer's Support Unit** at the Office for the Aging offers information and counseling to persons concerned about the diagnosis or care of someone with Alzheimer's or other forms of dementia, including information and referral about counseling services, support groups, respite care, medical information, long-term care services, education programs, and tracking programs (*Project Lifesaver and Medic Alert+Safe Return program*). Articles and brochures are available on a variety of issues for caregivers, as well as a lending library of Alzheimer's books and videos. A six-page guide titled ***Alzheimer's Resources in Tompkins County*** lists agencies and services of interest to those caring for loved ones with Alzheimer's Disease or related disorders. It can be viewed online at:

www.tompkinscountyny.gov/cofa/local/resources

Alzheimer's Association Central New York Chapter

441 West Kirkpatrick St.

Syracuse, NY 13204

www.alz.org/cny

Family caregivers or persons with dementia can consult with Alzheimer's Association staff using any of the following services:

I & R Services and 24/7 Helpline

Confidential care consultation provided by master's level clinicians who can help with decision-making support, crisis assistance and education on issues families face every day.

Contact: 1-800-272-3900

Care Consultation

Care Consultation can be provided in-person or via telephone to persons with dementia and their families to help with assessment of needs and assistance with planning and immediate problem solving.

Contact: (607) 785-7852, Ext. 601

Family Consultations

Family Consultations bring caregivers and family members together in a safe, facilitated forum to identify and discuss issues of common concern and develop strategies to address them.

The Alzheimer's Association offers caregiver **trainings, support groups** (see page 15), and **safety resources** (including the *Medic Alert/ Safe Return program*). Online education materials and the ALZConnected social community (online support groups and chat groups) can be accessed through the National Alzheimer's Association website: www.alz.org

Social Engagement Activities

These are scheduled periodically at cultural and recreational locations throughout the region covered by the Alzheimer's Association of Central New York.

Tompkins County Long Term Care Services

Human Services Building
320 W. Martin Luther King Jr./State St.
Ithaca, NY 14850

(607) 274-5278

Long Term Care Services provides phone consultation and can help people and their families determine what long-term care services may be needed. Case Management is provided to those eligible for services through the **NY State EISEP Program**, Alzheimer's Respite Scholarships, and caregiver respite programs as well as those receiving Medicaid home care service directly from the local Department of Social Services. Long Term Care Services conducts the **Patient Review Instrument (PRI)** assessment required before nursing home admission.

Supports Specific to Other Diseases and Conditions

Other local and national organizations offer support services to family caregivers of persons with specific illnesses/conditions. These include local organizations like the Cancer Resource Center in Ithaca, the American Cancer Society, and the National Parkinson's Foundation. Groups for persons with particular conditions (e.g. stroke, Parkinson's) are often open to family caregivers as well. See page 15 for a list of local groups.

Caregivers of Veterans

The Veteran's Administration offers information and support to family caregivers.

GERIATRIC CARE MANAGEMENT

Geriatric Care Management offers a variety of personalized and customized services to assist older adults and their families in meeting long-term care needs. All service delivery options are designed by the geriatric care manager, a professional dedicated to helping individuals and families access various resources and services. Geriatric care management options vary depending on individual needs and are available on a short-term, on-going, or long-term basis. Geriatric care management services are provided for a fee. These services may include:

- Comprehensive assessment in client's place of residence with recommendations
- Ongoing assessment and follow-up visits
- Consultation, referral, and access to community resources
- Organization of healthcare appointments
- Arrangement of home maintenance, errand services and meal delivery
- Review of needs concerning finances and medical services
- Assistance with placements in a skilled nursing facility, assisted living or senior housing
- Support with discharge planning from hospital or skilled nursing facility

COUNSELING OPPORTUNITIES

If you are a family caregiver, you may find the experience rewarding; you may at times be feeling stressed, overwhelmed, angry, or guilty. No one has said that it is easy to sort out our relationships with family members. It is, of course, a lifetime activity. But mental health professionals tell us that longstanding problems often crop up again in caregiving situations. Understanding that this is not unusual, and understanding the changes that caregiving and infirmity bring to family relationships, can make life more positive and acceptable. Much more difficult to face is seeing a loved one we once knew as strong become debilitated. Not all of us are prepared to face this without help.

Many caregivers also need support to value and care for themselves. Caregivers are often pulled between the needs of the care receiver, the needs of other family members, or responsibilities of a job, and are unable to find the time or energy to deal with their own personal needs.

This self-neglect too often has dire consequences for the caregiver's mental or physical health. Discussing your concerns with a professional counselor can help you manage your situation and learn how to improve it. There are several counseling opportunities for caregivers in Tompkins County.

Crisis Counseling

Suicide Prevention and Crisis Service

124 E. Court St.
Ithaca, NY 14850

(607) 272-1616

www.suicidepreventionandcrisiservice.org

Caregiving and chronic illness or disability can be stressful for both caregivers and care-receivers. **SPCS** phone counselors are available at any hour of the day or night to assist in crisis or non-crisis situations. Caregivers can get assistance in assessing depression or suicidal risk. Counselors are available to help people manage their frustrations, loneliness and fears, and to direct caregivers to other available support.

Geriatric Outreach Program and Mental Health Services

Tompkins County Whole Health

201 East Green St.
Ithaca, NY 14850

Susan Spicer, *Geriatric Outreach Team Coordinator*
(607) 274-6230

The **Geriatric Outreach Program** exists to meet the unique needs of older persons in Tompkins County with mental health concerns. Services include mental status assessments and treatment, including counseling and/or medications.

The treatment team includes a community mental health nurse, psychiatric social worker, staff psychiatrist, and case aide.

When a client cannot come to the clinic, assessment services can be provided to clients in home or community settings.

Individual Counseling and Support

Individual counselors can provide clinical and therapeutic counseling and support for you and/or your loved one.

The **Caregiver Counselor/Consultant** provides confidential consultation and support to family caregivers. This service provides extra input to help caregivers deal with a broad range of problems and an opportunity to talk with someone who can listen. Possible topics for discussion include, but are not limited to, coping with stress and isolation, time management, and ways to get a break. Meetings are ordinarily held in the office, but special circumstances may be considered for in-home service. No charge. Contributions are requested to expand the service.

In-Home Counseling for Older Adults – The Seniors Services Program of Family & Children's also offers individual counseling to older adults experiencing a wide range of difficulties. For elders unable to access needed services due to health problems or limitations of mobility, counseling services may be provided at home.

LEGAL AND FINANCIAL RESOURCES

Legal and financial issues are sometimes confusing but necessary aspects of caring for a frail older person. Planning ahead in these areas enables the caregiver to use the older person's resources to provide the best quality care, particularly if and when the older person becomes unable to make decisions for her/himself. Possible legal arrangements that can be made include the durable power of attorney, health care proxy, living will and others. In the financial realm, it is important for caregivers to understand Social Security, Medicare, Medicare Supplement policies and Medicaid.

Directory of Senior Housing Facilities

Subsidized Apartments

The apartments mentioned in this guide have been especially designed for independent older adults. They offer many features that are attractive to older residents such as laundry facilities, extra security and safety features, and the opportunity to live with other older adults. The apartment complexes have generally been subsidized by various federal agencies. This accounts for the variation in income level stipulations and rental rates.

For your information, in 1983 Congress enacted a statute allowing residents of rental housing for the elderly or handicapped to have common household pets. Application of this policy differs from complex to complex. We suggest that you call and inquire if this is an area of interest to you.

LONG DISTANCE CAREGIVING

Providing care for an older adult from a distance presents a unique challenge. Gathering information about the older person's situation, helping her/him make decisions about the future and providing emotional support are as important as providing care.

Open communication among everyone involved and planning ahead can help avoid complications in the future. An important part of long-term planning is gathering information about services and programs in the older person's community. If you have Internet access, you may be able to find information about long-term care services in another state by searching to see if the county Area Agency on Aging has a web page listing those resources.

Eldercare Locator

1-800-677-1116

www.eldercare.gov

One service available to long distance caregivers is the Eldercare Locator. The Eldercare Locator is a national toll-free number that helps caregivers identify the most appropriate organization for information and assistance in the older person's community. Call **1-800-677-1116** Monday through Friday, between 9:00 AM and 11:00 PM, Eastern Standard Time, for assistance. Please have the following information ready when you call: **(1)** The name and address of the older person you are assisting including the zip code. **(2)** A brief and general description of the problem or type of assistance you are seeking.

NY Connects/Tompkins County Office for the Aging

214 W. Martin Luther King Jr./State St.

Ithaca, NY 14850

(607) 274-5482

www.tompkinscountyny.gov/cofa

The Office for the Aging maintains a directory of contact people in County Offices for the Aging nationwide. A simple telephone call can provide detailed information about services available where the older person lives, regardless of what part of the state or country. A consultation with staff of the Caregivers' Resource Center may also be helpful in your decision-making process. The Resource Center also has a lending library of books and other resources for caregivers as well as free, easy-to-read brochures.

LONG TERM CARE COMMUNITY SUPPORT SERVICES

A variety of other services are available to help meet the physical, psychological, and social needs of frail elderly living in the community. These services can also be of tremendous help to caregivers, easing some of the responsibilities of providing care. The first section that follows lists available community resources in the areas of home health care, nutrition, transportation, safety, socialization, etc. The second section contains a listing of in-home support and nursing services. For further information, consult the Long Term Support Services in Tompkins County booklet in the Office for the Aging booklet series.

214 W. Martin Luther King Jr./State St.
Ithaca, NY 14850

(607) 274-5482

www.tompkinscountyny.gov/cofa

The **Personal Emergency Response System** is a communication system which links an individual with the County's emergency medical response system. Pressing a button on the unit or on a pendant worn around the neck automatically dials Doyle Medical Monitoring which will alert emergency services to respond when necessary. The **PERS system costs \$25/month**. At an extra charge, Fall Detection Sensor and GPS Mobile Service can be added to manage safety and security virtually anywhere.

The Office for the Aging can also provide information on other Emergency Response Systems that are available.

Protective Services for Adults

Tompkins County Department of Social Services
320 W. Martin Luther King Jr./State St.
Ithaca, NY 14850

(607) 274-5222

www.tompkinscountyny.gov/dss

Protective Services are provided to adults over the age of 18 who, because of physical or mental impairment, are unable to manage their own resources or protect themselves from neglect or hazardous situations, and have no one able to help them. Services are available regardless of income level. If necessary, the Department of Social Services can serve as a representative payee for a person unable to manage her or his money. Referrals come from concerned individuals as well as agencies and people themselves. Referrals are kept confidential.

Project Lifesaver

Tompkins County Sheriff's Office/Public Safety Building
779 Warren Rd. (Megan Cook)
Ithaca, NY 14850

(607) 257-1345, Ext. 4456

Project Lifesaver provides timely response to save lives and reduces potential injury for adults and children who wander due to Alzheimer's, autism, and other related conditions or disorders. Each participant who is enrolled in the program is fitted with a Project Lifesaver wristband (transmitter) that emits a tracking signal every second 24 hours a day. The signal can be tracked by trained personnel from the Tompkins County Sheriff's Office using equipment with radio frequency tracking capability.

A helicopter with radio frequency capability can be used in the search if necessary. Personnel come to the participant's house every 60 days to change the battery and check the band to assure it is in good working order. Call the Sheriff's office at **(607) 257-1345, Ext. 4456**, to make an appointment to enroll in the program.

IN-HOME CARE

A variety of agencies offer home care service. Home care may be scheduled as needed from several hours per week to 24 hours a day. Costs vary depending on the agency and the services performed. Generally, home care is provided by a registered nurse (**RN**), licensed practical nurse (**LPN**), home health aide (**HHA**), personal care aide (**PCA**), homemaker, or companion. Hiring someone to provide care in the home, either from an agency or privately, is an individual decision. Home care agencies are responsible for training, scheduling, supervising, arranging for substitutes, and employee benefits for personnel they employ. Payment to an agency is made either by the family or a third party such as Medicare, Medicaid, or an insurance company. Private home care arrangements generally cost less than hiring through an agency; however, the patient or family assumes responsibility for paying social security taxes, disability, and other employer responsibilities. For further information, consult the Long Term Support Services in Tompkins County booklet in the Office for the Aging series.

Public Programs Providing In-Home Care

NY Connects/Tompkins County Long Term Care Services

Human Services Building
320 W. Martin Luther King Jr./State St..
Ithaca, NY 14850

(607) 274-5278

Provides intake and ongoing care management services for seniors receiving in-home services through the **EISEP** program and for some **Medicaid home care** clients. Their nurses can also provide the **PRI** (Patient Review Instrument) assessment that is required for individuals prior to admission to a nursing home. Note: Medicaid beneficiaries who need help with dressing, bathing, or others hands-on personal care that is expected to last more than 120 days must enroll in a Medicaid Managed Long Term Care (**MLTC**) plan. Call Tompkins County Long Term Care Services or NY Connects/Tompkins County Office for the Aging to learn about the process in enrolling in MLTC plans.

EISEP

Expanded In-Home Services for the Elderly Program provides non-medical, in-home services and case management for people 60 or over to help with bathing, dressing, cooking, shopping, laundry, and housekeeping. The case manager will arrange for and monitor these services to make sure they are meeting the client's needs. Clients pay for services on a sliding fee scale based on their income and housing expenses. There is no charge for care management.

Medicaid

Medicaid provides a variety of home care services to Medicaid clients. Medicaid need must be documented by a physician. Caseworkers and nurses, under a doctor's order, jointly coordinate in-home personal care and home health aide services to people who receive Medicaid. Services are provided without regard to age.

RESPITE AND ADULT DAY PROGRAMS

Taking care of an elderly family member at home can be a 24-hour-a-day, 365-day-a-year commitment. Providing this care places considerable stress on spouses, adult children, and friends who must manage other family and work obligations as well. Respite services offer family caregivers temporary relief from the responsibilities of caring for a physically or emotionally dependent person, and also provide the care-receiver with social opportunities. There are three types of respite services available to caregivers in Tompkins County: in-home respite, overnight respite, and adult day programs. One or more of these services may be just what you need to take care of yourself!

Longview Adult Day Program

Longview

1 Bella Vista Dr.
Ithaca, NY 14850

(607) 375-6323

www.longviewithaca.org

Many Tompkins County families have grown to include grandparents. But with today's busy, two-career lifestyle, it's often impossible for someone to be home all day providing companionship and ensuring the safety and security of older adults (age 55+).

Spousal caregivers may also benefit from some respite from caregiving. Longview's Adult Day Community is one possible solution. The daily fee includes personal supervision and recreational programs, as well as morning and afternoon snacks and a hot, nutritious lunch. \$80/ day. Participants can attend all five days, or just certain days of the week.

Volunteer In-Home

Project CARE-Friendly Visiting and Respite

NY Connects/Tompkins County Office for the Aging
214 W. Martin Luther King Jr./State St.
Ithaca, NY 14850

(607) 274-5499

www.tompkinscountyny.gov/cofa

Project CARE matches community volunteers with caregivers to provide some respite by visiting with the care recipient or doing other errands

or chores to free up the caregiver (see *page 35*). Project CARE may also arrange for paid aide respite for certain individuals through Tompkins County Long Term Care Services. Specific criteria must be met.

Privately-Hired Respite Services

For a fee, you may arrange for respite aide service through one of several area agencies if they have aides available at the times you need one (See *page 41*). You may also be able to hire someone privately through The Registry, a service of the Finger Lakes Independence Center (see *page 42*).

Overnight Respite

Note: Some financial assistance may be available to family caregivers who cannot afford to pay for in-home help or a short-term facility stay that enables the caregiver to get away for a few days.

Call the Office for the Aging: (607) 274-5482

Assisted Living Level of Care

Short-term stays are allowed on a space-available basis at Brookdale Senior Living, Longview, Bridges Cornell Heights, as well as most of the smaller, family-type, adult care homes locally. You may also want to look at places in nearby counties if space is not available at local residences. Charges generally include meals, housekeeping, help with bath and medications, and recreational programming. Respite residents must have enough self-care skills to qualify for residential care.

Higher Level of Care

Those who do not have self-care skills to qualify for an adult home level of care can consider two other options for overnight respite:

Cayuga Nursing and **Beechtree Center** skilled nursing facilities.

Both accept short term admissions for respite purposes on a space-available basis. A nursing home assessment and doctor's orders are needed. Contact the nursing home well before the date respite care is needed.

Veterans may be eligible for a respite stay at a **Veteran's Administration** residential care facility. In Tompkins County, contact the **County Department of Veterans Services** at **(607) 274-5920** to discuss eligibility and how to apply or call the national **VA Caregiver Support Line** at **1-855-260-3274**. Go online to learn about VA caregiver support at **www.caregiver.va.gov**

SERVICES FOR ADULTS WITH PHYSICAL DISABILITIES

The following services may be useful to adults with physical disabilities. Physical disabilities encompass a wide variety of conditions including visual, speech, hearing, mobility or other impairments caused by illness or accident. If the impairment originated before age 22, this may qualify as a developmental disability, and provide eligibility for a variety of services and funding sources.

Equipment and Assistive Devices: Information, Purchases and Loan Closets

Many devices are available to help disabled people to adapt to their disabilities and lead more active lives. They can make life much easier for caregivers as well. If your need is temporary, the loan closets listed below provide free equipment (a deposit may be required). Whenever possible, seek professional guidance to choose the appropriate device—wheelchairs and walkers come in sizes, and can be unsafe if used improperly. Physical and Occupational Therapists and other rehabilitation professionals can help choose the right adaptive equipment for physical impairments.

SERVICES FOR EMPLOYED CAREGIVERS

Due to economic necessity and greater opportunities in the workplace, more and more caregivers, particularly daughters with young children, are working outside the home. Juggling work and family responsibilities can be a tremendous challenge. It is important for working caregivers to seek out and receive the support that they need.

Employers are beginning to recognize eldercare as an important concern for their employees which may affect productivity. Policies to inquire about and advocate for (if your employer does not already have them) include flexible working hours, flexible benefits, family leave, and contracted programs such as information and referral, adult day care, workshops and support groups.

Family and Medical Leave Act (FMLA)

The **Family and Medical Leave Act (FMLA)** covers employers of more than 50 employees (at the worksite or within 75 miles thereof). Since 1993, the FMLA has entitled qualified employees, who have been employed for at least 12 months and who have worked at least 1,250 hours during the 12-month period, to up to 12 weeks of unpaid leave per year for the birth or adoption of a child, to care for a spouse or an immediate family member with a serious health condition, or when unable to work because of a serious health condition. The employer is required to maintain any preexisting health coverage during the leave period and, once the leave period is concluded, to reinstate the employee to the same or an equivalent job.

NY State Family Paid Leave

As of January 1, 2018 most employees who work for private employers in New York State are eligible to take **Paid Family Leave**. Family Leave provides job-protected, paid time off so someone can care for a close relative with a serious health condition. The employee can continue their health insurance while on paid family medical leave and are guaranteed the same or a comparable job when the leave ends. For more details, visit:

Employee Assistance Programs (EAP)

Some employers provide free, confidential individual counseling for employees. Inquire about whether there is an Employee Assistance Program through your place of work to help you explore options when problems seem too confusing or painful to solve alone.

Trualta

The New York State Office for the Aging (NYSOFA) and Association on Aging in New York (AgingNY) have partnered with Trualta to offer Trualta's web-based caregiver education and support platform at no cost to any unpaid caregiver in New York State.

There are an estimated 4.1 million caregivers in New York State who provide 2.68 billion hours of unpaid care. Sixty-one percent worry about caring for a loved one and 70 percent reported at least one mental health symptom during the pandemic. Trualta teaches critical skills to reduce caregiver stress levels and increase confidence in one's caregiving abilities.

ARCHANGELS

ARCHANGELS is a national movement and a platform that is reframing how caregivers are seen, honored, and supported using a combination of data and stories. We believe shining a light on caregivers so they feel seen, honored, and supported is the first line of care. Our Caregiver Intensity Index (CII) is designed to engage all caregivers, even those who do not see themselves in that role. The platform provides each caregiver with a 'score' that not only validates their experience, but crosswalks them over to the resources that exist but often go underutilized due to lack of awareness.

ARCHANGELS provides communities (including states, employers, healthcare providers, and payers) with an omni-channel data-driven engagement approach that changes caregiver's lives (as well as top and bottom lines) for the better.
