

Tompkins County
2024 Countywide Shared Services Plan

Introduction

In accordance with New York State Law, Tompkins County convened a panel of mayors and supervisors to develop the County's 2024 Shared Services Plan. Areas of discussion for possible municipal collaboration and shared services included cybersecurity, code administration, animal control, and broadband. After much discussion, it was agreed by the Panel to support an initiative developed by the County's Department of Emergency Response (DoER) that would enhance emergency response services throughout the County. The Countywide Rapid Medical Response program is a cost effective means of meeting the critical need for emergency response in the County. It is outlined in detail on the following pages. It has the full support of the Shared Services Panel.

Countywide Rapid Medical Response

Tompkins County is in the process of planning to implement a Rapid Medical Response Team—a service that would be cost prohibitive to most of Tompkins County municipalities without sharing the service. This will be a team of professional New York State certified Emergency Medical Technicians (EMTs) that will be strategically placed throughout the county, in response vehicles, with the mission to provide Emergency Medical Services (EMS) to the county. The Rapid Medical Response Team would augment local community-based first responders in providing first response services to county residents and visitors during medical and traumatic emergencies, while they await the arrival of a transport ambulance agency.

Tompkins County Rapid Medical Response is a pilot project in the planning phase. Approved by the Tompkins County Legislature, it will be made operational in 2024 and operated by the County's Department of Emergency Response (DoER). The longstanding EMS model in Tompkins County municipalities is volunteer based, except for a professional ambulance service operated by Dryden Ambulance, Inc., Groton Fire Department and Ambulance, and Trumansburg EMS, and a private EMS operated by Bangs Ambulance.

The volunteer model of local municipalities met the need for emergency services in the past, but this is no longer a sustainable or reliable model. The 2023 YTD 9-1-1 call statistics support this claim, with 45% of all volunteer rescue 9-1-1 calls going unanswered by local community-based rescues and only 22% of the county's 279 EMS personnel being volunteers.

As part of this pilot project, Tompkins County is considering seeking the startup and operating costs for the first year through the NYS Local Government Efficiency grant and NYS Countywide Shared Services Initiative (CWSSI) funding. Estimated startup and operating costs for the first year include personnel, three rapid response vehicles, equipment, materials, and supplies, and totals \$699,794. Subsequent annual operating costs of the rapid medical response service are estimated at \$504,956 as demonstrated in Appendix A. The County will need to consider cost sharing or other arrangements with municipalities to support ongoing operational expenses for year 2 and beyond.

The startup costs for the County to provide a service which includes three transport ambulances in place of rapid response vehicles is \$1,584,473, with annual operating costs of \$861,475 as demonstrated in Appendix B. The estimated costs of a countywide ambulance service have been included to demonstrate the significant cost savings of the County's proposed approach to invest in a Rapid Medical Response program rather than a transport ambulance service.

The calculated taxpayer savings from the avoided cost for each municipality to create and fund this professional service is estimated at \$1,557,591 in year one, which considers the total costs of individual municipalities establishing their own Rapid Medical Response programs. The cost per municipality is calculated by reducing the equipment, staff, and other expenditures to reflect the appropriate size for most of Tompkins County's rural municipalities. A detailed list of the estimated startup costs, personnel, and operating expenditures at the municipal level are included in Appendix C. The

ongoing annual expenses for each municipality to operate a rapid medical response or ambulance service are included in Appendix D.

Appendices E & F represent the total cost savings for both Rapid Medical Response and Ambulance services for the municipalities for both the first year and subsequent years. This comparison is used to demonstrate the significant savings of the County’s proposed approach to invest in a Rapid Medical Response program rather than those municipalities without an ambulance service funding and managing their own emergency medical response program.

The diagram in Appendix G demonstrates how the number of necessary rapid medical response vehicles was determined. This diagram illustrates strategically placed vehicles, throughout the County, with a 15-mile radius to demonstrate their response times.

Total estimated tax savings for 2024 and 2025 are summarized in the following table for all eligible municipalities. Startup costs were removed from the estimate after the 2024 savings.

Shared Service Project	2024 Net Tax Savings	2025 Net Tax Savings
Tompkins County Rapid Medical Response	\$ 1,557,591.48	\$983,077.04

Representations

The development of this Plan followed the guidance provided by the State and required by Law, namely:

- A panel of mayors and supervisors was convened, meeting one three separate occasions, and participated fully in the development of the Plan;
- Bargaining Unit leadership of all participating municipalities, including the County, was invited to submit recommendations and perspectives either directly to the Panel or through a dedicated email address established for this purpose. No comments were received;
- Five (5) public hearings were held after due public notice. Hearings occurred on September 6, (Town of Caroline), September 28 (Town of Newfield), October 11 (Town of Enfield), October 18 (Town of Lansing), and October 3 (Tompkins County Legislature);
- The Tompkins County Legislature approved a resolution recommending the adoption of the Plan as drafted by the Shared Services Panel, following a 30 day review period;
- The Shared Services Panel convened on December 11, 2023 and approved the Plan as contained in this document.

Appendix A

Countywide Rapid Medical Response Startup Costs			
		Annual Cost per Response Unit	Total Cost (3 Total Response Units)
Medical Direction	\$250/hour (30 hours)	N/A	\$7,500.00
Personnel	\$25.46/hour per employee (3120 hours)	\$79,435.20	\$238,305.60
Fringe Benefits	\$11.25/hour per employee (3120 hours)	\$35,100.00	\$105,300.00

Row 5

2023 Local Government Property Taxes	The sum total of property taxes levied in the year 2021 by the county, cities, towns, villages, school districts, BOCES, and special improvement districts within such county.
	\$305,958,768

Row 6

2023 Participating Entities Property Taxes	The sum total of property taxes levied in the year 2023 by the county, any cities, towns, villages, school districts, BOCES, and special improvements districts identified as participating in the panel in the rows above.
	\$84,022,003 (Entities included in Appendix D of the Plan)

Row 7

Total Anticipated Savings	The sum total of net savings in such plan certified as being anticipated in calendar year 2024, calendar year 2025, and annually thereafter.
	\$1,557,591.48 (2024) \$983,077.04 (2025)

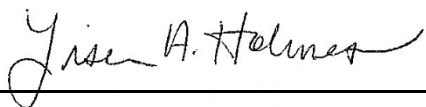

Row 8

Anticipated Savings as a Percentage of Participating Entities property taxes	The sum total of net savings in such plan certified as being anticipated in calendar year 2024 as a percentage of the sum total in Row 6, calendar year
---	---

County-Wide Shared Services Property Tax Savings Plan Summary

Appendix A

	2024 as a percentage of the sum total in Row 6, and annually thereafter as a percentage of the sum total in Row 6.
	1.85%
Row 9	
Anticipated Savings to the Average Taxpayer	The amount of the savings that the average taxpayer in the county will realize in calendar year 2024, calendar year 2025, and annually thereafter if the net savings certified in the plan are realized.
	\$42.26 (2024) \$26.67 annually thereafter
Row 10	
Anticipated Costs/Savings to the Average Homeowner	The percentage amount a homeowner can expect his or her property taxes to increase or decrease in calendar year 2024, calendar year 2025, and annually thereafter if the net savings certified in the plan are realized.
	-2.97% (2024) -1.88% (2025), -1.88% annually thereafter
Row 11	
Anticipated Costs/Savings to the Average Business	The percentage amount a business can expect its property taxes to increase or decrease in calendar year 2024, calendar year 2025, and annually thereafter if the net savings certified in the plan are realized.
	-2.97% (2024) -1.88% (2025), -1.88% annually thereafter
CERTIFICATION	
<p>I hereby affirm under penalty of perjury that information provided is true to the best of my knowledge and belief. This is the finalized county-wide shared services property tax savings plan. The county-wide shared services property tax savings plan was approved on <u>December 11</u>, 2023, and it was disseminated to residents of the county in accordance with the County-wide Shared Services Property Tax Savings Law.</p>

Approval of Plan (please mark one):

Yes

No

I voted "Yes" for the Shared Services Plan because it will save Tompkins County taxpayer dollars.

Additional comments, or reason for voting "No"

The Town of Newfield votes in favor of this plan as a pilot for Tompkins County and with the understanding that no funding for these services will be requested from Municipalities in the first year, 2024. We understand that there is a need for this consolidated service in the County but we have no means to provide financial support in 2024. Municipality budgets are tight and passing this service to the taxpayers will require substantial proof that it has improved response times dramatically to the Town of Newfield before we can commit to this program beyond 2024.
