Tompkins County Unique Natural Areas 2017

Tompkins County Environmental Management Council
Inventory of Unique Natural Areas in Tompkins County.
Last Updated: 2017
UNAs boundaries were delineated by field biologists based on a review of air photographs, digital GIS base map data (roads, building footprints, 20 foot contours and streams) and field visits. UNAs boundaries are approximate and should be used for general planning purposes only. As a practical matter the County does not warrant the accuracy or completeness of the information portrayed. The end use of this map agrees to accept the data "as is" with full knowledge that errors and omissions may exist, and to hold harmless the County for any damages that may result from an inappropriate use of this map.
