

**Design Engineers**

**Energy + Sustainability Consultants**

## Engineering excellence in the building industry since 1989.

Taitem is the go-to engineering firm for high-performance buildings, energy efficiency, and energy policy and programs. Combining technical expertise with practical field experience, Taitem delivers carbon-reducing cost-effective solutions you can rely on.

Be confident with **Taitem** on your team.

*The Taitem team has repeatedly demonstrated their vast knowledge of building systems, energy analysis, and design for sustainability in both existing buildings and new construction. I also really appreciate how they bring a strong ethical commitment to everything they do.” — State Energy Program Manager*
